

Roger Schurman, Schurman's Gas n' Glass, Ridgefield, WA, "hopped" on the micro-brewery-sign bandwagon when he realized just how profitable it could be. As you can see, Roger specializes in colorful, eye-catching neon. What follows is a list of some breweries for which he's created signage, their locations, and the colors of glass tubing Roger used in the signs. All designs pictured are Gas n' Glass originals:

- Bayhawk Ales, Irving, CA — EGL purple and EGL clear gold tubing
- Nor'Wester Brewing Co., Portland, OR — EGL clear red, Technolux super blue and EGL clear gold tubing
- Aviator Ales, Seattle, WA — (middle left) EGL clear gold, Technolux super blue and Voltarc neo ruby tubing; (bottom) Voltarc neo ruby, EGL clear gold and Technolux super blue tubing
- Pyramid Ales, Kalama, WA, and Seattle, WA — EGL clear red and EGL clear gold tubing
- Hale's Ales, Kirkland, WA — EGL 6500 white, Voltarc neo blue and Noviol gold coated tubing
